The Faculty Lecture Series is designed to foster a presence in the community with other professionals and students by showcasing the scholarly development of faculty members within the Department as well as select students from the Bachelor of Social Work and Master of Social Work Programs.

The Faculty Lecture Series’ aim is to present and promote the scholarly developments and interests of the Faculty members and students. In presenting the results of their research, the Lecturers will share the enthusiasm and dedication that sustains their creative energies.

The Lectures and preceding social exchanges are intended to be recurring occasions for members of the University and community to interact and strengthen their sense of unity.

These periodic gatherings will help the participants to not only recognize the university as a unique institution in culture, its community with scholarly roles and contributions that go beyond, but at the same time enhances, its own educational programs by compelling individuals to assess their own interests and skills.
